

Built-in Booster

Low Pressure? No Problem.

Built-in Booster. Unstoppable Flow.

Smart WIFI Control

- **Massive Multi Liter Capacity:** A powerhouse performance delivering 12,16,20 liters of hot water per minute, ideal for large Homes, bathrooms, and Jacuzzis.
- **Built-in Water Pressure Booster :** Internal booster technology increases incoming water pressure by up to 150%, ensuring stable operation and powerful flow even in low-pressure areas or during peak usage times.
- **Intelligent Bathtub Fill Mode:** Features a dedicated "Bathtub" mode that lets you set the exact water volume (liters). The heater automatically stops or alerts you when the bath is full, preventing overflow.
- **Active Antifreeze System:** Equipped with a built-in electric heating device that automatically activates when temperatures drop below 5C to protect the internal pipes from freezing
- **Touch Screen Precision:** A modern digital touch panel allows for precise temperature adjustments between 36C and 60C.
- **Forced Exhaust Safety:** Uses a fan-driven forced exhaust system to safely expel combustion gases outdoors, ensuring safe indoor operation.
