22 LITRES

- 22 Liter High-Capacity Flow: Engineered to heat up 22 liters of water every minute, providing a powerful and continuous supply for larger households.
- Multi-Tap Support: Perfectly suited for larger homes, comfortably supporting 3-4 taps or showers running simultaneously.
- Active Antifreeze System: Equipped with a built-in electric heating device that automatically activates when temperatures drop below 5C to protect the internal pipes from freezing
- Smart Temperature Stabilization: The intelligent digital control system realizes real-time adaptation to stabilize water temperature, eliminating uncomfortable fluctuations.
- IPX4 Weatherproof Durability: Specifically designed for outdoor installation with a robust, waterproof build that has a strong bearing against harsh environments.
- High-Pressure Resilience: While it starts perfectly with normal water pressure, the reinforced internal system is built to withstand high-pressure environments safely.

Model No.	E5
Capacity	22 (L/min)
Heat Load (kW)	36
Exhaust Way	Forced Exhaust
Install Place	Balcony / Outdoor
Gas Type	LPG
Efficiency	≥ 84%
Applicable Water Pressure	0.2 – 8 bar
Product Size (mm) (W x D x H)	588*385*190 mm
