

CY620-iPC G2.5 PRODUCT

PRODUCT FEATURES AND FEATURES

LCD function

Pre charge function

Residual gas prompting function

Self diagnostic function

Low power off valve protection function

Exhaust valve function

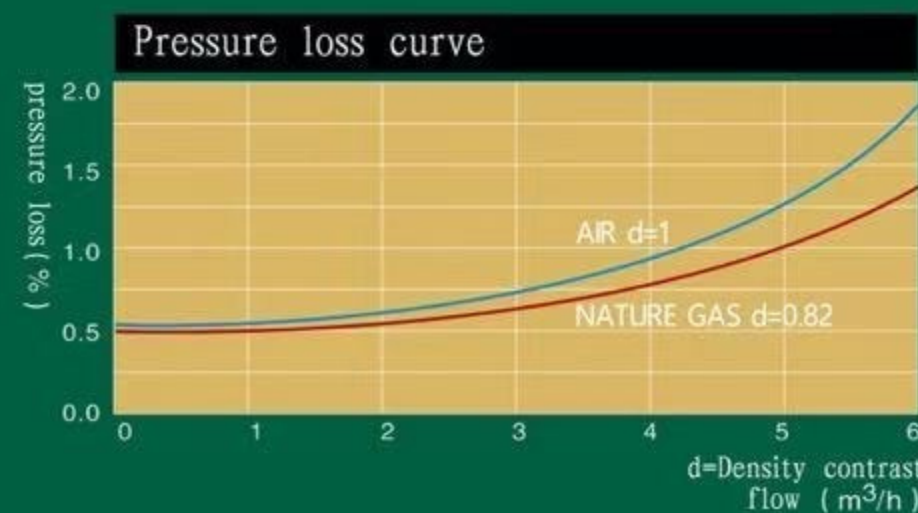

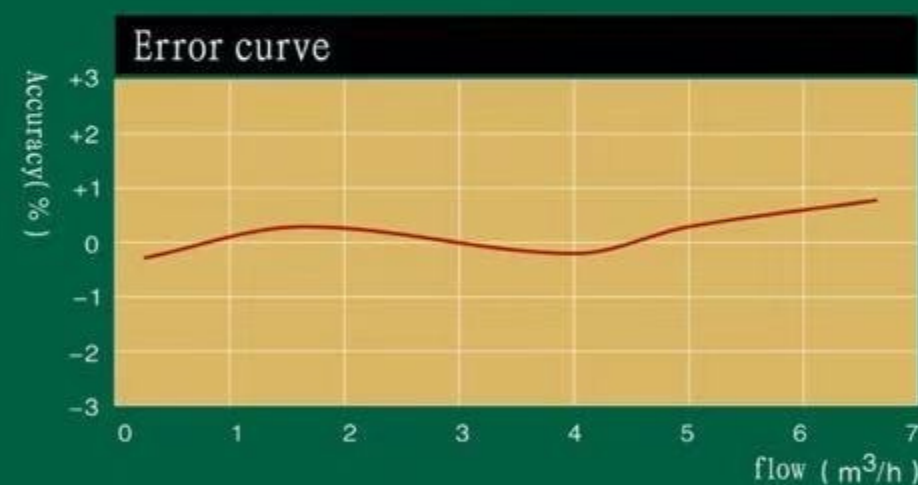

Protection function

Query function

Anti theft gas, corrosion prevention, anti demolition, anti electromagnetic interference and other functions with the sale of gas management system, can achieve gas sales management automation in line with the GB/T6968-2011 "membrane type gas meter" national standards

IC CARD INTELLIGENT HOUSEHOLD GAS METER

IC Card Intelligent Gas Meter

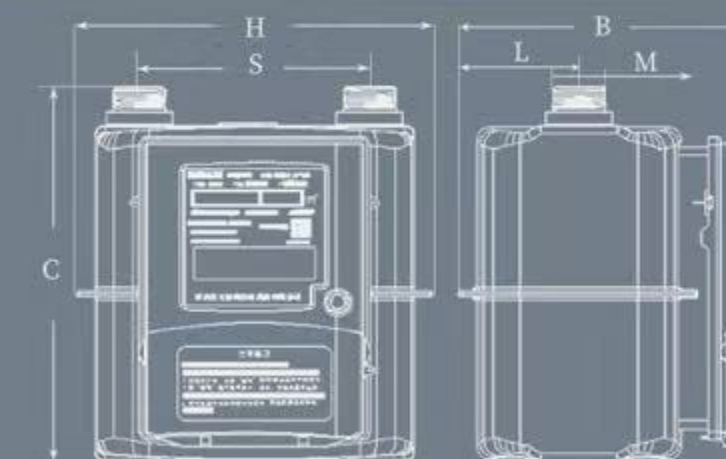

MAIN TECHNICAL PARAMETERS

CY620-iPC G2.5

No.	Main Technical Parameters	Company	Model		
			1.6	2.5	4
1	Maximum flow	m³/h	2.5	4.0	6.0
2	Minimum flow	m³/h	0.016	0.025	0.04
3	Maximum operating pressure	kPa	15		
4	Accuracy Level	level	1.5		
5	Pressure loss	Pa	≤250		
6	Operating voltage	V	4.5 or 6V		
7	Maximum reading	m³	9999.999		
8	Minimum reading	m³	0.1		
9	Protection Class		IP65		
10	Working temperature		-10~55°C		
11	Gauge thread		M30X2		
12	Surface center distance	mm	130		

INSTALLATION NOTICE

Ambient condition should accord with relative international standards.
The gas meter must be checked for air tightness prior to installation.
Any flaming, inflammable and poisonous gases in use forbidden for the sake of the check
Empty air in gas meter and pipeline entirely before installation,

DIMENSION

CY620-iPC G2.5

Model	Dimension						Net Weight Kg
	S(mm)	H(mm)	C(mm)	L(mm)	B(mm)	M	
Iron	130	220	68.5	202	164	M30X2	2.1
Aluminum shell	130	228	56	161	143	M30X2	2.4
